**Angela Santiago Chung: Vocals; Guitar**  
**Kristy Jones: Vocals; Guitar**

Heaven's Burning is an all-girl alterna-pop band based in Los Angeles. Their music emphasizes melodic vocals and edgy guitar lines driven by a groove/rock beat.

"They have this raw and yet refined sound going from simple progressions and bare drums/bass supporting to dark and beautifully musical passages . . . The recorded guitar sound is classic - at times like the Beatles and the Stones sound - it is pure . . . real and unprocessed." - Earbuzz.com

"The Southern California-based, all-girl group aren't afraid to stray away from what's hip and, as a result, accomplish a sound all its own. Emancipated from the cookie-cutter sound that plagues much of what makes its way onto radio waves or in the hands of music buyers - and filled with fuzzy guitars, resplendent harmonies, passionate lyrics, steadfast drums and ingratiating, saccharine vocals . . . Heaven's Burning and its unabashed way of doing things proves that its sound is appealing to both listeners of underground alternative rock and more mainstream musical aficionados." – Heather Fuller, Campus Circle

"Immediately the playing reminds me of early Beatles. They weren't fantastic yet (or were they?) but you know they're going to be something great on down the long winding road." – Ben Omhart, Music Dish Industry E-Journal: Muse's Muse

Having enjoyed airplay at various college radio stations and web radio stations across the nation and worldwide including KKLA Los Angeles, CA, KCLA Hollywood, CA, KCRH, Hayward, CA, KUPS Tacoma, WA, KGHP Gig Harbor, WA, WSGR Port Huron, MI, KZOW Forest City, IA, WQFS Greensboro, NC, and WGEV Beaver Falls, PA, the band's critically acclaimed, self-titled EP *Heaven's Burning* has sold out. The group's artistic endeavor and sophomore release, *Free Agents (Soul'd Here)*, demonstrates the band's maturity musically, lyrically, and conceptually, and as a limited run, is soon to follow in the footsteps of its predecessor.

Heaven's Burning has been playing to a loyal and expanding following, performing enthralling sets in clubs, colleges, and music festivals from California to Michigan and providing support for P.O.D., Mary Lou Lord, Meredith Brooks, Five Iron Frenzy, and The Violet Burning.

"During a 45 minute set, Heaven's Burning won over the boisterous crowd with their thoughtful songs . . . This was a captivating performance . . . The material is well written and constructed, and well played, with a lot of interesting experimentation, particularly from Kristy Jones' guitar . . . The sound that HB is going for . . . show that experimentation and pop sensibility can blend together successfully." – Martin Brown, Live Magazine
